| Width | 23 1/2" |

Features & Benefits

Generous capacity
With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

Perfect results
Our built-in ovens feature ActiveVent technology for optimized moisture levels, and AeroTech™ for even heat distribution. Get perfect results even when you’re using multiple shelves.

Multi-function flexibility
11 functions including Aero™ Pastry, Roast and Rapid Proof mean no matter what you're cooking, you've got the right heat to match.

Refined styling
With their tempered black glass, stainless steel finish, and contemporary handle styling, our built-in ovens match the rest of Fisher & Paykel’s kitchen appliance family.

Cleaning is simple
The self-clean function breaks down food residue at a very high temperature, leaving a light ash that’s easily removed with a damp cloth.

Safe and sound
The CoolTouch door features triple glazing and a cooling system that ensures it’s safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

Large broiler
This built-in oven has a generously sized broiler for producing plenty of crisp, beautifully browned food.
